

MedSave RX Plan Information

MedSave Rx, a co-pay prescription plan, is now available to you as an additional member benefit. You will enjoy prescription co-pays of \$10.00 or less from first tier drugs and \$20.00 or less from the second tier of a Clinically Tested and Certified formulary list covering 90% of all available generic medications. Over 400 prescription drugs are included in the formulary, and the formulary is constantly being reviewed and new drugs added. Nearly every therapeutic category, in other words, most all medical conditions can be treated utilizing medications included on the MedSave Rx formulary. Simply make your physician aware of the drugs available at MedSave's prices, and ask them to choose a medication from the formulary list when at all possible. With recent brand-name patent expirations and the availability of new blockbuster generic drugs, most all acute and chronic conditions and diseases can be well controlled without the need for expensive brand-name medications. Always feel free to ask your pharmacist for help, suggestions, and clinical advice related to drug therapy for you and your family members.

MedSave Rx is accepted at all the major drug store chains & independent pharmacies---more than 44,000 across the country. KMart, WalMart, CVS, Publix, Kroger, Walgreens, Rite Aid and most independent pharmacies accept the card. Simply present your card at the pharmacy to get these benefits. Your pharmacist may call the 24/7 customer service number, 1-800-933-3734 to verify your eligibility.

Also available is a high quality mail order pharmacy participating in the MedSave Rx plan. Through the mail pharmacy, you can receive more of any of the formulary medications at reduced prices, as well as being able to purchase Over-the-Counter products, health and beauty aids, and durable medical equipment and supplies. The mail order unit, DrugSource Inc., is available toll-free at 800-854-8764 or at www.pharmavailOTC.com or www.drugsourceinc.com.

During this time of higher and higher prices, particularly for medicines, we know MedSave Rx will go a long way toward reducing your healthcare expenses. For more information on the MedSave Rx plan, please call a PharmAvail customer service representative toll-free at 800-933-3734.
